3 Aşağıdaki metni oku ve soruları cevapla.

On Monday morning, Ahmet did not feel well. He woke up with a headache and a high temperature. He also felt very tired. His mother decided to take him to the health center.

First, they went to the reception desk. The receptionist asked for Ahmet's name and age. Then Ahmet waited for the doctor. After a few minutes, the doctor called him into the examination room.

The doctor checked Ahmet's temperature, looked at his throat, and listened to his lungs. The doctor said that Ahmet had a bad cold. He told Ahmet to drink plenty of water, eat healthy food, and rest at home for a few days.

On the way home, Ahmet and his mother stopped at the pharmacy to get some medicine. Ahmet stayed in bed, drank warm tea, and slept a lot. Three days later, he felt much better and returned to school.

1. How did Ahmet feel when he woke up?

- He had a fever and headache
- He had a low temperature
- He had sore throat and headache
