What If the Library of Alexandria Were Still Standing?

The **Library of Alexandria** was one of the most famous libraries of the ancient world. Although historians do not know exactly how many scrolls it contained, they agree that it was an important centre of learning. Today, many people enjoy imagining how history might be different if the library (1) **was / were** still standing.

Some historians believe that if the Library of Alexandria (2) **was / were** still standing today, researchers (3) **would have / had** access to many ancient texts that are now lost. Others argue that if more historical records (4) **was / were** available, we (5) **understood / would** understand ancient civilizations much better. However, not everyone agrees. Some experts think that if the library (6) **was / were** still standing today, history (7) **wouldn't be / would be** completely different because knowledge continued to spread through many cultures over the centuries.
